# Purpose

Provide our invited guests and community partners with an overview of the Army's Concept Framework.

# Outline

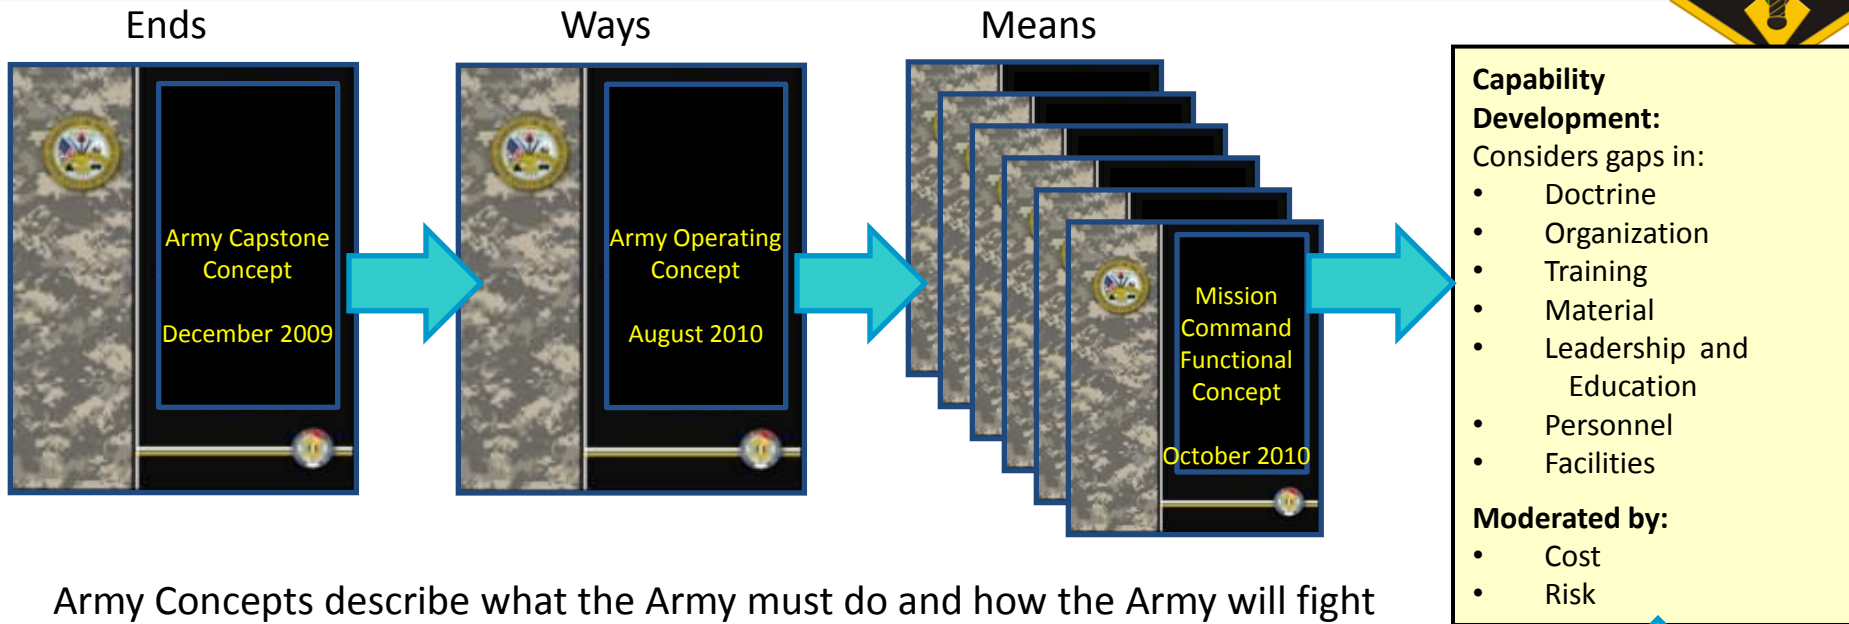

- Concepts Process and Framework
- Future Operational Environment
- Protection Warfighting Function
- Base Camps
- How we can partner

Link to TRADOC Concepts:

<http://www.tradoc.army.mil/tpubs/pamndx.htm>

# Concept Process and Framework

- Army Concepts describe what the Army must do and how the Army will fight in the future (10-20 years out)
- Concepts are nested with strategic guidance from DOD and DA
- The Army determines its required capabilities starting with concepts
- The Army organizes its concepts through warfighting functions:
  - Mission Command
  - Intelligence
  - Movement and Maneuver
  - Fires
  - Protection
  - Sustainment
- Additional concepts address Learning, Training, Building Partner Capacity, and the Human Dimension

CG, TRADOC  
Directed Concepts

# Future Operational Environment

- The US will be confronted by a wide range of threats in the future
- Future adversaries will:
  - ❖ Possess advanced technologies
  - ❖ Be globally networked
  - ❖ Well resourced and resilient
  - ❖ Will work in collusion with one another
- Future conflicts will be complex and unpredictable:
  - ❖ Expect to confront multiple adversaries simultaneously
  - ❖ Future adversaries will operate amongst neutral and friendly parties
  - ❖ Homeland may become a front in future conflicts

**We can expect to be confronted by the range of threats and malicious actors simultaneously in future JOAs.**

**As experienced today, most Threats and Malicious Actors are globally networked and extending their influence and reach across the global; no longer confined by borders**

# Protection Warfighting Function

- Protection is a warfighting function which allows commanders to preserve vital assets, forces, partners, and civilian populations.
- Current concept strikes balance between supporting maneuver warfare and stability operations
- Identify, Prevent and Mitigate
  - ❖ Identify: Detect and Assess
  - ❖ Prevent: Warn, Defend and Defeat
  - ❖ Mitigate: Respond and Recover
- For next concept revision, examining adding Recover to Lexicon
- To be effective, Protection measures must be:
  - ❖ Comprehensive: Account for all types of hazards and threats unique to environment
  - ❖ Redundant: Each measure should be complimented by at least one other as a fail safe
  - ❖ Layered: Protection is most effective and strongest if in depth
  - ❖ Integrated: Achieve synergy with complimentary and reinforcing protection capabilities
  - ❖ Enduring: Constantly assessing and adjusting protection measures; on-going process
- Protection capabilities must be adaptable and versatile

# Army Doctrine and Army Doctrine Reference Publications 3-37, *Protection*

## Protection

The preservation of the effectiveness and survivability of mission-related military and nonmilitary personnel, equipment, facilities, information, and infrastructure deployed or located within or outside the boundaries of a given operational area.

Executed through

### Protection Warfighting Function

The related tasks and systems that preserve the force so the commander can apply maximum combat power to accomplish the mission.

Identify and prevent or mitigate threats and hazards through...

### Operations Process

Plan | Prepare | Execute | Assess

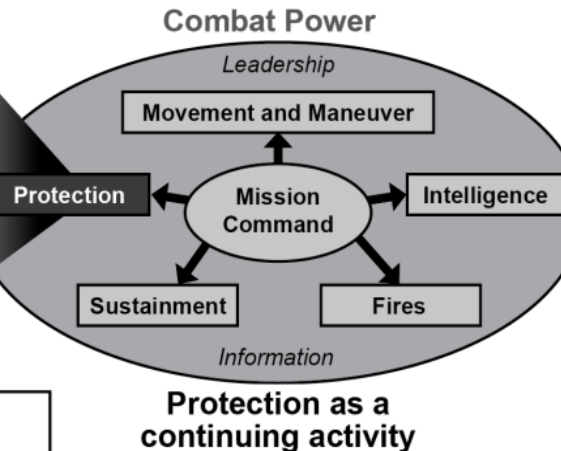

Guided by...

### Commanders

Staffs

Leaders

Soldiers

### Principles

Comprehensive  
Integrated  
Layered  
Redundant  
Enduring

- Fully integrated the Protection Framework within the operations process.
- Aligned the protection definition with JP 3-0.
- Replaced the protection principle of “**full dimension**” with “**comprehensive**.”
- Added **Implement Operational Security** to the Protection WFF.
- Added **Law and Order task** from Mission Command WFF to the Protection WFF.
- Added **Implement physical security procedures** to the Protection WFF.
- Moved **internment and resettlement** task from Sustainment WFF to the Protection WFF.
- Moved **Information protection** task from Protection WFF to the Mission Command WFF.
- ADRP expands the protection foundation discussion that is laid out in the ADP:
  - Chapter 1 – Protection Framework
  - Chapter 2 – Protection Planning
  - Chapter 3 – Protection in Preparation
  - Chapter 4 – Protection in Execution
  - Chapter 5 – Assessing Protection

# Base Camps

- MSCoE led development of Base Camp Concept and Capabilities Based Assessment for TRADOC and DA from 2008-2011
- Concept described requirement to plan, build, operate, manage, sustain, and close Base Camps in more efficient and cost effective means
- Capabilities Base Assessment identified over numerous gaps in Policy, Doctrine, Organization, Training, Materiel, Leader Development and Facilities
- MSCoE recommended following solutions to Joint Staff and Army Staff for resourcing:
  - Policy
  - Engineering
  - Sustainment
  - Management

# UNCLASSIFIED Army Techniques Publication 3-37.10, *Base Camps*

**Base Camp doctrine developed for the following focused areas:**

- Base Camps Overview
- Base Camp Planning
- Base Camp Design
- Base Camp Construction
- Base Camp Operations
- Base Camp Security and Defense
- Base Camp Transfer and Closure

Note: publication is under staffing for approval.
